

CITY OF WATERLOO, IOWA

ENGINEERING DEPARTMENT

715 Mulberry St. • Waterloo, IA 50703 • Phone (319) 291-4312 Fax (319) 291-4262
City Engineer • email: city.engineer@waterloo-ia.org

DATE: November 15, 2018 **UPDATED**
TO: The Honorable Mayor Hart
FROM: Jamie Knutson, PE, Interim City Engineer
RE: **NEWS RELEASE: 2018 CITY ROAD CONSTRUCTION UPDATE**

It should be noted that all dates listed in this press release are tentative only and are subject to change due to unforeseen circumstances or weather delays.

You may visit our website at <http://www.cityofwaterlooiowa.com> for updates and maps. Click on the tab to the right of the search option in the upper right hand corner of the web site and select Quick Links and then select Construction Closures and Updates.

FY 2018 STREET RECONSTRUCTION PROGRAM, Contract No. 944

<u>STREET</u>	<u>FROM</u>	<u>TO</u>	<u>TENTATIVE START DATE</u>
Kingbard Blvd. (Stage 3)	219/306 Kingbard Blvd.	W. 4 th St.	Under Construction
Woodstock Rd.	150/151 Woodstock Rd.	Midlothian Blvd.	Under Construction

FY 2018 ANSBOROUGH AVENUE IMPROVEMENTS, FROM US 20 TO SAN MARNAN DR., Contract No. 942

The contractor has begun work along the east and west edges of the roadway. Motorists are advised to use caution when traveling through this area.

LOGAN AVENUE RAILROAD CROSSING CLOSURE

The Logan Avenue Railroad Crossing is closed from Center Street to south of Conger Street. There is a signed detour route at Logan Ave./Edwards Street intersection, proceeding west to Edwards Street/Lincoln Street intersection, proceeding north to Lincoln Street/Conger Street intersection, proceeding east to Conger Street/Logan Avenue intersection. Closure is expected to be in place until late January.

US 63 (1ST STREET) BETWEEN JEFFERSON STREET AND FRANKLIN STREET

As part of the two-year U.S. 63 reconstruction in Waterloo, traffic switches will occur beginning at 8 a.m. Monday, Nov. 19, weather permitting, according to the Iowa Department of Transportation's New Hampton construction office.

The northbound lanes of U.S. 63 from Jefferson to Franklin streets will be reopened. A section of Franklin Street, which has been closed for reconstruction at the intersection with northbound U.S. 63 will also reopen.

Signals currently flashing all red will revert to permanent cycles once traffic has been switched.

After traffic is switched, lane closures will occur on southbound U.S. 63 to remove pavement markings which were in a head-to-head traffic configuration. Lane closures will occur in spring 2019 to install the remaining sidewalks, brick pavers, and sodding.

WE'RE WORKING FOR YOU!

An Equal Opportunity/Affirmative Action Employer

US 63 BETWEEN FRANKLIN STREET AND NEWELL STREET

The Logan Avenue and Almond Street intersection is now open for cross traffic. Dane Street intersection is open to cross Highway 63.

This segment of Highway 63 is a two-year reconstruction project to build an overpass over the railroad. This segment of Highway 63 is expected to be closed until November of 2019. A segment from Franklin to Dane will be completed by sometime in September. The new overpass segment, from Dane to Newell, will be constructed over two construction seasons – 2018 and 2019.

For the overpass segment, during the first year of construction, work will mostly be below the level of the railroad and will include the removal of both the railroad bridge and pedestrian bridge and construction of a temporary railroad runaround to keep trains moving across the project site during construction. First year work will also include the installation of a groundwater suppression system and filling the remaining hole from the existing underpass. First year work across this segment requires the construction of extensive shoring or temporary supports to allow the contractor to work in the existing underpass. At the end of the 2018 construction season, the underpass hole will be filled, the trains will be running on a new railroad embankment.

The second year of construction will involve construction above the railroad including the building of overpass embankments with retaining walls, the constructing of a pedestrian tunnel crossing Highway 63, and the construction of a bridge structure crossing over the railroad. This railroad overpass segment of Highway 63 is expected to be completed and open to traffic in November, 2019.

During this project, U.S. 63 traffic will be detoured around the work zone using Airline Highway, Airport Boulevard, and U.S. 218. There is also a detour for local traffic using Conger St. to Broadway St. to Franklin St. to Mullan Avenue.

FY 2018 UNIVERSITY AVENUE RECONSTRUCTION – PHASE I – GREENHILL RD. TO EVERGREEN AVE., Contract No. 933

The City of Waterloo and the contractor continue to work on the reconstruction of the University Avenue Reconstruction Project Phase 1 from Greenhill Road to Evergreen Avenue.

The week of November 19th, the traffic will remain the same on University Avenue and University Avenue will remain open to traffic. Falls Avenue will remain open on both sides of University Avenue and Sager Avenue will be opened on the south sides of University Avenue. The Ansborough Avenue traffic will remain head-to-head traffic on the northbound lanes. Dundee Avenue will remain closed north of University Avenue. The University Avenue Frontage Road Intersection near Casey's will remain open with head-to-head traffic on one side. Please see the attached map showing the construction zone.

The eastbound lane closures from Greenhill Road to the University Avenue Frontage Road Intersection near Casey's will be in effect for approximately one more month, depending on the weather. The westbound lane closures from the University Avenue Frontage Road Intersection near Casey's to Evergreen Avenue will be in effect until November, depending on the weather. During this time, University Avenue will remain open and access to the frontage roads will remain.

For safety purposes, please stay away from the construction area. Heavy equipment will be moving back and forth on the closed lanes. It would be advisable to stay behind the sidewalk on the property side during the reconstruction work.

To request road closure notices by e-mail or to unsubscribe, please e-mail us at: university.avenue@waterloo-ia.org.
